

TESTIMONIALS

"I hired Brian after investigating the investigators. I looked at reviews and blogs and found a lot of negative reviews and comments associated with the others. I liked that Brian was on Angie's list and couldn't find anyone who was unhappy with his service so I went ahead and hired him for a difficult case. I needed to find my husband to serve him with divorce papers within 6 days since a court hearing was scheduled and he had to be served 14 days in advance. My husband was off the grid so to speak, living on someone's boat at a marina in Seattle. He was as underground as they come. Brian was able to locate him within 2 days. I was shocked at how fast he was able to find him, but not as shocked as my husband I'm sure. Brian had called and let me know the progress on the case every day. In my opinion, Brian is a human bloodhound and I am thrilled with his service!"

"Thank you for the professional, attentive, and pragmatic way in which you handled my case. Your persistence, ability to overcome obstacles, awareness of privacy issues, and knowledge of the law results in successful work."

— **Dianne H.**, Seattle, WA

"We hired Brian to locate a family member no one had been in touch with for many years and could not locate. It was very simple to 'get the ball rolling.' I paid at his website via PayPal, provided what info we had. Brian emailed with follow up questions or confirmations as they came up. He located him and provide us with an address and phone number. Very professional service!"
